# Insert an existing content present on current site or on others sites

This feature allows you to insert an existing content (present on current site or on others sites managed by the CMS application)

The content is only editable on original site.

Step 1: Choose the search criteria	Step 2: Select one of the search results, content to insert

Insert an existing content ...

This form helps you find a content you want to share. Enter several criteria to limit search results.
Click 'Next' to see results.
